## IN CONCERT

ARLO HARRIS,  
CHEMIST-PIANIST

The little known work of an eccentric 19th Century French composer will be performed by CSCSB chemist-pianist professor Arlo Harris in a noon recital Wednesday, October 31 in PS-10.

Dr. Harris, who studied and played with the Cincinnati Symphony Orchestra as a youth, will discuss the life of composer Erik Satie as he plays his musical compositions. Dr. Harris has collected everything published by Satie, a teacher of Maurice Ravel and Igor Stravinsky. The composer did not specify bars or the time the music was to be played in. He also wrote "crazy words" to his piano selections, according to Dr. Harris.

Dr. Harris, Assoc. Prof. of Chemistry, has continued his interest in music as a hobby. He made his concert debut with the Cincinnati Symphony at age 19 and has appeared on radio and television and in night clubs.

The entire College community as well as the public is invited to the concert. There is no admission charge.
